

**Workshop “Girls in Control”** en marge du World IFAC Congress  
July 13th, 2021, at 14:00 CEST

It will be offered in six languages (French, Norwegian, Portuguese, Italian, German, and English) in parallel, and the French version of the workshop is done by Pauline Bernard (MINES ParisTech).

During the interactive workshop(s), female students between the age of 10 to 15 will explore and learn about basic principles of feedback and control. Registrations are still open (in particular for French, Portuguese, and Norwegian students) and girls from all around the world are welcome!
